

## Measuring A Ring

1. Print this document ensuring that you **DO NOT** select "Print To Fit" in the print dialogue.
2. Confirm that the box's measurements are accurate by measuring with a ruler.
3. Match the internal diameter of an existing ring with the circles provided.

## Important

Rings with a wide band need to be purchased in a large size. It is best to measure an existing ring that approximates the band size of your chosen purchase.

Don't forget to turn your ring over and measure both sides for accuracy.

## Buying Your Jewellery

1. Simply visit [www.braithwaitesjewellery.co.uk](http://www.braithwaitesjewellery.co.uk) and select from the wide variety of exciting styles available.
2. Visit our store in York:
